

Are you or is someone you love
learning to cope with a recent diagnosis of
**Neovascular Age-related Macular
Degeneration** (wet AMD)?

If so, participating
in our **medical
research study**
may be a
good option.

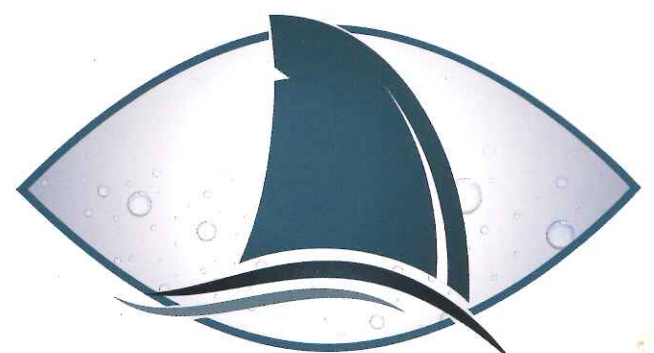

Please call us to learn more about participating in our
research study of an **investigational eye-drop
medication** for individuals with **wet AMD**.

Qualified participants receive:

- Study-related care and study medication or placebo at no cost
- Compensation for time and travel
